Rail crossing repairs in June will result in temporary road closures

C.P. Rail to conduct routine maintenance in Mountain View County

MOUNTAIN VIEW COUNTY, ALBERTA – The Canadian Pacific Railway (C.P. Rail) will be undertaking repairs on three level crossings in Mountain View County during the first two weeks of June. These repairs will impact County roads and motorists on the following dates:

- On June 3, 2009 C.P. Rail will be repairing and lifting the track on Range Road 15 just south of Olds. This repair will lead to a one-to-two day road closure, depending on the amount of road and track maintenance required. Our crews will be available for any small patching that may arise.
- On June 4, 2009 C.P. Rail will be doing repairs on the crossing located on TWP 332, just west of Highway 2A. This repair will lead to a one-to-two day road closure, depending on the amount of road and track maintenance required. Operations will be on hand to ensure all patchwork is complete before the road is opened to the public.
- On June 8, 2009 C.P. Rail will be doing repairs on the crossing located on TWP 324, just west of Range Road 15. This repair will lead to a one-to-two day road closure, depending on the amount of road and track maintenance required. Operations will be on hand to ensure all patch work is complete before the road is opened to the public.
