

P

Title: Policy for Contract Gravel Truck Premium

Policy No: 4001

Approval: County Council

Effective Date: January 1, 2006

Supersedes Policy No: New

Mountain View
COUNTY

O

Policy Statement: Mountain View County (The County) will pay a premium to contract gravel truck operators when the price of fuel increases over the fuel rate in effect at the time the contract with the operators is negotiated.

L

Purpose: The purpose of this policy is to recognize that upward fluctuations of fuel prices can have a significant impact on gravel truck operators contracted annually by the County, and to establish a mechanism to address the fluctuations.

I

Procedures: The County will pay a premium for each day that the contract gravel trucks worked in the 2005 season for the increase in diesel fuel costs, at;

- a.) \$20.00/day for a tandem truck
- b.) \$30.00/day for a truck & belly dump
- c.) \$30.00/day for a truck & pup

The above rates are in effect for the 2005 construction season only. In future years, this procedure will be implemented when the price of diesel fuel exceeds the base price of diesel fuel established for that specific year. Rate of premium will be determined at the time of determining the base price. The base price of diesel will be established for each specific year at the time of signing and approving contracts for contract gravel trucks.
