Policy Title: Gravel Screening Sales

Policy No.: 4025

Approval: County Council

Effective Date: November 18, 2020

Approved Date: November 18, 2020

Supersedes Policy No.: Section C 5

Policy Statement: Mountain View County will sell gravel screenings from gravel pits owned by, or under lease agreement with Mountain View County, to ratepayers and/or residents in Mountain View County.

Purpose: The purpose of this policy is to allow ratepayers and/or residents of Mountain View County to purchase gravel screenings from gravel pits that are County owned or under lease agreement with Mountain View County.

- Principles:**
1. A permit must be issued and signed by an approved County authority before gravel screenings can be sold and removed from a County gravel pit. Permits can be obtained in person or by phone from the County Office during normal business hours.
 2. The charge for gravel screenings will be according to the Fee Schedule Bylaw approved annually by County Council.
 3. Purchasers who are not Mountain View County ratepayers and/or residents in Mountain View County must make application to and receive approval from the Chief Administrative Officer.
 4. Annual gravel screening sales per County ratepayer and/or resident are limited to 450 yards. Sales of screenings may be discontinued at a pit at the discretion of Administration.
 5. Gravel screenings will only be loaded and sold from County owned and leased pits where the crushing contractor or County equipment and personnel are present and only after acquiring a valid permit from the County.
 6. Gravel screening sales from private pits under lease agreement will be made according to the conditions of the lease and the above regulations.
